The Educational Institutions

Subject: Excused Absences from school on September 6th 2023

We belong to an Islamic community and are trying to lead an Islamic way of life. To follow any principle requires a great deal of self-discipline as well as cooperation from the society at large

Fortunately, the society we are living in has provided us the essential cooperation. The administration of educational institutions, the faculty and staff, and the pupils have all provided a great learning environment for the students of our Islamic community. They have also helped our students observe an Islamic way of life. In process, we are certain that our students have maintained a good academic standard and have proven to be good citizens.

On Wednesday 6th September 2023, would be packed with religious activities. Special prayers and religious rites we perform at certain times conflict with the regular school day. In the spirit of following an Islamic way of life, the students will be participating in these activities and will not be able to come to school. Accordingly, we request your cooperation in giving them excused absences and guiding them to make up for the lost time to satisfy the school requirement

We thank you very much for your continued cooperation and understanding.

Sincerely,

Mir M. Ali
Director
