April 7th, 2024

To: The Educational Institutions

Subject: Excused Absences from School on April 10th, 2024

We are a part of an Islamic community and our goal is to lead a life following Islamic principles. However, following these principles requires a great deal of self-discipline, as well as cooperation from the society we live in.

Fortunately, we have received essential cooperation from the administration of educational institutions, the faculty and staff, and the students themselves. They have created a great learning environment for the students of our community and have helped them to observe an Islamic way of life. We are confident that our students have maintained a good academic standard and have proven to be good citizens.

On April 10th, 2024, our community will be engaging in special prayers commemorating the end of the holy month of Ramadan. As a result, the students will be participating in these activities and will be unable to attend school. We kindly request your cooperation in giving them excused absences and guiding them to make up for the lost time to satisfy the school requirement.

We appreciate your continued cooperation and understanding.

Sincerely,

Mir M. Ali
